CHARTACLOUD ANNOUNCES 2015 HOME CARE SERVICES AND TECHNOLOGIES SYMPOSIUM

Symposium for Certified and Non-Certified Home Health Care Entities to be Held
March 26, 2015 in Portsmouth, New Hampshire

Exeter, NH, March 3, 2015– ChartaCloud Technologies, LLC (“ChartaCloud”) ChartaCloud Technologies (“ChartaCloud”) announced today that it will host a one day symposium themed “**Foundational Home Health Care Services Technologies for Profitability, Performance and Compliance**”. The symposium’s agenda will address topics for both certified and non-certified home health care, hospice and after care service providers. The purpose of the symposium is to enable participants to become more deeply informed regarding current conditions and trends on the use of technologies and IT related HIPAA compliance strategies for technologies used in home health care services. A major goal of the symposium is to allow participants to discover how the use of technologies can enhance patient care, business operational performance and improve HIPAA compliance around privacy and security.

The symposium will feature nationally recognized speakers including Mr. Rich Chesney, President of Healthcare Market Resources and Colington Consulting’s President, Jay Hodes, former Assistant Inspector General for the U.S. Department of Health and Human Services. Technology specialists from ChartaCloud, Hewlett-Packard, Treeno Software and qliqSoft will also present on technologies for use in health care services.

A ‘live technologies lab’ will be on-hand whereby participants will have access to advanced technologies such as SMART paper forms, digital pens for data capture and the latest technologies in health care laptop, tablet and smartphone based mobile electronic forms processing.

Symposium participants will also have the opportunity to engage in a moderator led 'future scenario' mapping session whereby attendees can interact with their peers to forecast their views on the future of home healthcare services. The objective of the 'future scenario' mapping session will be to develop and share peer defined insights on how to plan for and set strategies for the future of their businesses.

"We at ChartaCloud believe that there is significant value in assisting home health care service providers secure a deeper understanding of the growing role technologies will play as an integral component of their practice profitability and compliance management. To the degree that we can as a company contribute and partner and advocate for increasing IT related knowledge, awareness and preparedness for the future of this critically important and growing sector of health care we are pleased to do so," said Lauryn Schimmel managing director, ChartaCloud Technologies

There is no fee to attend the 2015 Symposium; seating is limited. The symposium will be held at Portsmouth's **The 100 Club** located at 100 Market Street in Portsmouth, New Hampshire. Further details regarding the symposium can be obtained and seating reservations can be secured by calling 603-580-1088 or by e-mail at events@chartacloud.com subject line: symposium

About ChartaCloud Technologies
